

Gold EA + Hosting — Terms of Service

Version 2026-10-16

These terms apply to the "Gold EA + Hosting for MetaTrader 5" subscription sold by Agimat FX ("we", "us"), operated by Dennis Buchholz, contact hello@agimatfx.com. By subscribing you agree to them.

1. What you get

- A licence to use our gold trading Expert Advisor ("the EA") for as long as your subscription is active.
- Hosting: the EA runs in a MetaTrader 5 terminal on our server, connected to your own MetaTrader 5 account.
- Setup: we install the EA and load the settings you choose.
- Monitoring: if your terminal stops, we are alerted and work to get it running again.

2. What we do not do

- **We never hold your money.** Your funds stay with your broker, in an account in your name. We never receive, hold or move trading funds. The only payment to us is the subscription fee.
- **We do not open, own or control broker accounts.** The account is yours, with the broker you chose, under your broker's terms.
- **We do not make trading decisions.** You choose the EA's settings. We don't place, change or close trades, and we only change settings when you ask us to.
- **We do not give investment advice and we do not manage money.** This is software plus technical hosting. It is not asset management, financial advice or a managed account.
- **No profit promises and no profit share.** Results depend entirely on the EA, its settings and the market.

3. Your account and your settings

You remain fully responsible for your broker account: your deposit, leverage, account type, the settings you choose, and the risk you take. You can log in to your account from your own phone or computer at any time and see every position. You can ask us to change your settings at any time; changes are made only on your instruction.

4. Your login details

- You send us your MetaTrader 5 login only through our secure portal. We never ask for passwords by email or chat.
- We use your login only to connect the hosted terminal to your account.
- A MetaTrader 5 login can trade but cannot withdraw money. Withdrawals are only possible from your broker's own client area.
- You can change your MetaTrader 5 password at any time. Doing so disconnects the hosted terminal until you send us the new login.

- When your subscription ends, we remove your account from our terminal and delete your login details.

5. Availability

We work to keep your terminal running, but servers, internet connections, brokers and MetaTrader itself can fail or need maintenance. We do not guarantee uninterrupted operation, and we are not responsible for trades that are missed, delayed, or executed differently because of an outage, a broker issue, or a market event.

6. Risk

Trading forex and CFDs carries a high risk of losing money, and you can lose all of the money in your account. Automated trading does not remove that risk. Past results do not guarantee future results. Only trade with money you can afford to lose.

7. The EA licence

The EA is licensed, not sold. It may only be used on the account we host for you during your subscription. You may not copy, share, resell, decompile or modify it.

8. Fees, renewal and cancellation

- The subscription costs \$99 per month or \$990 per year, charged through Whop, and renews automatically until you cancel.
- You can cancel at any time in your Whop account. The service continues until the end of the period you have paid for, and is then stopped.
- Refunds: Payments are non-refundable once your EA has been set up, except where the law requires otherwise.

9. Liability

To the maximum extent permitted by law, we are not liable for any trading losses, lost profits, or indirect losses. Our total liability to you is limited to the subscription fees you paid us in the three months before the claim. Nothing in these terms limits liability that cannot be limited by law.

10. Ending the service

We may suspend or end the service if fees are not paid, if the EA licence is misused, or if continuing would break the law. If we end the service for any other reason, we refund the unused part of any period you have paid for.

11. Changes to these terms

We may update these terms. We will tell you by email before changes take effect. If you continue the subscription after that, the new terms apply.

12. Governing law and contact

These terms are governed by the laws of the Republic of the Philippines. Questions:
hello@agimatfx.com.
